TECHNICAL SKILLS

Languages

- Java
- Python
- SQL (PostgreSQL, MySQL)
- NoSQL (MongoDB)
- HTML / CSS
- JavaScript / TypeScript
- C#

Frameworks

- Spring Boot
- Node JS
- Express JS
- React JS
- Angular JS

Tools and Concepts

- Git
- AWS
- Docker
- Postman, Swagger
- Power BI, Weka
- Machine Learning (ML)

PROFILE

Information and Communication Technology undergraduate with a strong interest in innovation, problem-solving, and emerging technologies. Experienced in developing practical university projects that combine creativity and technical thinking. Passionate about using technology to create intelligent solutions that improve everyday life and promote sustainability.

EDUCATION

Bachelor of Information and Communication Technology (Hons) 2023 - 2027

Faculty of Technology, University of Sri Jayewardenepura

- Coursework: Programming Fundamentals, Object-Oriented Programming, and Data Structures with a strong foundation in Python, C, and Java. Studies cover database management, web and mobile application development, and IoT with embedded systems, complemented by cloud computing, computer networks, machine learning with data mining and warehousing, and operating systems. Additional focus areas include cybersecurity, software engineering, and data analytics.

- GPA: 3.89 / 4.0

Diploma in English and Literature - Level 03 2022

Aquinas College of Higher Studies - Colombo 10

- Coursework includes grammar, composition, communication, and literature studies to build strong language and critical thinking skills.

GCE Advanced Level Examination - Technology Stream 2021 (2022)

Ananda College - Colombo 10

- 2As and 1B (Island Rank: 59th, Colombo District: 13th)

Diploma in Software Engineering - Pearson Certified 2021

Esoft Metro Campus - Piliyandala

- Completed the final project "Warrior of the Dark Valley" (game) and received the Best Performance Award 2021.

PROJECTS

E-Commerce Microservices Platform. December 2025 - Present (Ongoing)

Individual Project

- Building a production-grade microservices system with product catalog, auth, orders, and payments, using Docker, Kubernetes, OpenFeign, and observability tools like Zipkin and Micrometer.
- Technologies: Spring Boot 3, JPA, PostgreSQL, MongoDB, Kafka, Docker, Kubernetes, Spring Cloud, Keycloak, REST APIs
- GitHub Link: <https://github.com/SithumW/Ecommerce-microservices.git>

SOFT SKILLS

- Critical Thinking
- Teamwork and Leadership
- Curiosity & Continuous Learning
- Effective Communication
- Adaptability
- Problem Solving
- Project Management

VOLUNTEERING

- IT Crew Member: Japura Employability Skills Awards, Career Skills Development Society, University of Sri Jayewardenepura.
- Technical Crew Member: International Conference on Innovation and Emerging Technologies (ICIET) 2025
- Logistics Crew Member - "Touch the Peak" Job fair, FAS and FOT Episode - Career Skills Development Society, University of Sri Jayewardenepura.

EXTRACURRICULAR ACTIVITIES

- Elected President - Newly Initiated Circle of Visual and Performing Arts, Faculty of Technology, University of Sri Jayewardenepura.
- Event Coordinator - Information and Communication Society (ICTS), University of Sri Jayewardenepura.
- Leader - Team Insomniacs, an award-winning CTF team
- Senior Member, Ananda College Senior Brass Band (ACSB)

LANGUAGES

- Sinhala - Native
- English - Professional Proficiency

Swappo

July 2025 - September 2025

ICT Project - 5th Semester

- Swappo is a location-based platform that enables users to exchange items with people nearby. Unlike traditional online marketplaces, Swappo prioritizes location-based listings, allowing traders to find items closest to them.
- Technologies - React, NodeJS with ExpressJS, BetterAuth, PostgreSQL
- GitHub : <https://github.com/SithumW/Swappo.git>

SparkSense

December 2024 - February 2025

IoT and Embedded Systems - 4th Semester

- Real-time IoT power monitoring system that tracks energy usage, analyzes data, and provides insights for improved efficiency.
- Technologies - ESP32, Arduino, C++, Python Flask, AWS IoT, EC2, DynamoDB, React, React Native
- GitHub - <https://github.com/SithumW/SparkSense.git>

Resource Management System

December 2023 - January 2024

Mini Project - 2nd Semester

- Classroom resource management system that can monitor the movements and schedule the lecture time slots, separate preconditioning functionality for each lecture hall, and smart power-saving capabilities.
- The system can be accessed wiredly as well as wirelessly (Wi-Fi).
- Technologies - C++, Arduino, Python
- GitHub - https://github.com/SithumW/Smart_Classroom_Resource_Controller.git

CERTIFICATIONS AND ACHIEVEMENTS

- Selected as an **International Representative** of Sri Lanka and the University of Sri Jayewardenepura at Riviera 26, Vellore Institute of Technology (India), performed at Infusion 8.0 cultural event.
- **1st Runner-up** in the "CodeQuest" CTF competition organized by the IEEE of the University of Colombo School of Computing (UCSC), as the leader of the team "INSOMNIACS," University of Sri Jayewardenepura.
- Received a **Merit Award** at the "Japura Cryptx" CTF competition organized by USJ Faculty of Technology ICTS Society as the leader of Team "INSOMNIACS", University of Sri Jayewardenepura.
- Completed Oracle Data Platform 2025 Certified Foundations Associate.
- Completed Oracle APEX Cloud Developer Professional and Oracle AI Vector Search Professional certifications.
- Awarded prize for the higher z-score and subject prize in Ananda College Annual Prize Giving 2022 (awarded in 2025).
