- Problem Solving
- Critical Thinking

PROFILE

Information and Communication Technology undergraduate with a strong interest in innovation, problem-solving, and emerging technologies. Experienced in developing practical university projects that combine creativity and technical thinking. Passionate about using technology to create intelligent solutions that improve everyday life and promote sustainability.

EDUCATIONAL QUALIFICATIONS

Bachelor of Information and Communication Technology (Hons) 2023 - 2027

Faculty of Technology, University of Sri Jayewardenepura

- Coursework: Programming Fundamentals, Object-Oriented Programming, and Data Structures with a strong foundation in Python, C, and Java. Studies cover Database Management, Web and Mobile Application Development, and IoT with Embedded Systems, complemented by Cloud Computing, Computer Networks, Machine Learning with Data Mining and Warehousing and Operating Systems. Additional focus areas include Cybersecurity, Software Engineering, Data Analytics.
- GPA: 3.89 / 4.0

GCE Advanced Level Examination

2021(2022)

Ananda College - Colombo 10

- ICT - A, SFT- A, ET - B, General English - A
- Island Rank: 59th, Colombo District 13th
- Z-Score: 2.6109

GCE Ordinary Level Examination

2018

Central College - Piliyandala

- 7 'A' passes including Maths, ICT and Science.

PROFESSIONAL QUALIFICATIONS

Diploma in English and Literature - Level 03

2022

Aquinas College of Higher Studies - Colombo 10

- Coursework includes grammar, composition, communication, and literature studies to build strong language and critical thinking skills.

Diploma in Software Engineering - Pearson Certified

2021

Esoft Metro Campus - Piliyandala

- Completed the final project Warrior of the Dark Valley (game) and received the Best Performance Award 2021.

VOLUNTEERING

- Logistics - FAS and FOT Episode - Career Skills Development Society, University of Sri Jayewardenepura.
- IT Crew Member: Japura Employability Skill Awards Career Skills Development Society, University of Sri Jayewardenepura.
- Technical Crew Member: International Conference on Innovation and Emerging Technologies (ICIET) 2025

EXTRACURRICULAR ACTIVITIES

- Elected President - Newly Initiated Circle of Visual and Performing Arts, Faculty of Technology, University of Sri Jayewardenepura.
- Event Coordinator - Information and Communication Society.
- Leader - Team Insomniacs, an award winning CTF Team
- Senior Member, Ananda College Senior Brass Band (ACSBB)

LANGUAGES

Sinhala - Native
English - Professional Proficiency

PROJECTS

E-Commerce Microservices Platform (Ongoing Project)

Developed as part of the Master Spring Boot Microservices with Kubernetes & Docker Udemy course.

- Building a production-grade microservices system with product catalog, auth, orders, and payments, using Docker, Kubernetes, OpenFeign, and observability tools like Zipkin and Micrometer.
- Technologies: Spring Boot 3, JPA, PostgreSQL, MongoDB, Kafka, Docker, Kubernetes, Spring Cloud, Keycloak, REST APIs
- GitHub Link : <https://github.com/SithumW/Ecommerce-microservices.git>

Swappo - Local Trading platform focuses on exchange unwanted goods

ICT Mini Project - 5th Semester

- Swappo is a location-based platform that enables users to exchange items with people nearby. Unlike traditional online marketplaces, Swappo prioritizes location-based listings, allowing traders to find items closest to them.
- Technologies - React, NodeJS with ExpressJS, BetterAuth, PostgreSQL
- GitHub Link : <https://github.com/SithumW/Swappo.git>

SparkSense - IoT based Power Monitoring System

IoT and Embedded Systems - 3rd Semester

- Real-time IoT power monitoring system that tracks energy usage, analyzes data, and provides insights for improved efficiency.
- Technologies - ESP32, Arduino, C++, Python Flask, AWS IoT, EC2, DynamoDB, React, React-Native
- GitHub Link : <https://github.com/SithumW/SparkSense.git>

Smart Classroom Resource Management System

Mini Project - 2nd Semester

- Classroom resource management system that can monitor the movements and schedule the lecture time slots, separate preconditioning functionality for each lecture hall, and smart power-saving capabilities.
- The system can be accessed wiredly as well as wirelessly (Wi-Fi).
- Technologies - C++, Arduino, Python
- GitHub Link: https://github.com/SithumW/Smart_Classroom_Resource_Controller.git

CERTIFICATIONS AND ACHIEVEMENTS

- 1st Runner up in the CodeQeust Vault Edition CTF competition organized by the University of Colombo School of Computing.
- Awarded prize for the higher z-score and subject prize for Science for Technology in Ananda College Annual Prize Giving 2022 (Awarded in 2025)
- Completed Oracle Apex Cloud Developer Professional and Oracle Vector Search Professional Certifications.
- Followed certifications of Advanced Python Programming, Web Development conducted by the open learning platform of the University of Moratuwa
- Following FinTech and the Transformation in Financial Services - Copenhagen Business School (Coursera)
